

PRATIK MEHTA

TECH LEAD | MAGENTO EXPORT

SUMMARY

- I have a strong understanding of Magento's architecture and know how to create and manage products, categories, and customer accounts.
- I also have experience with Magento theming and front-end development using HTML, CSS, and JavaScript.
- Additionally, I am proficient in creating custom modules to extend Magento's functionality and integrating Magento with third-party payment gateways and shipping providers.
- I have knowledge of Magento's caching and performance optimization techniques.
- I led the development of a large-scale Magento e-commerce website for a retail company, resulting in increased online sales and improved customer experience.
- I also built a custom Magento extension for a client in the automotive industry, improving their inventory management process.
- Right now I am working on Magento 2.4.6 with Adobe Commerce.
- Lastly, I demonstrate strong competency in designing, developing, and maintaining REST APIs.

- **Frontend:** React.js, Angular.js, Knockout.js, JavaScript, jQuery.
- **Backend:** PHP, Laravel, CodeIgniter.
- **DevOps:** AWS, Docker, Redis, Varnish, GIT.
- **Agile & Scrum:** Team management, client communication, and project delivery.

WORK EXPERIENCE

TECH LEAD | MAGENTO EXPORT

Nesoft Technologies | Sep 2020 - Present

- Led a team of developers in building custom Magento 2.4.x solutions from the ground up, including requirement gathering, development, and deployment.
- Delivered complex e-commerce projects for international clients, such as Perfecta BE and FJEwellery, ensuring high-quality code and performance optimisation.
- Implemented GraphQL APIs and conducted unit testing for the T-Mobile project, improving system integration and API response times.
- Customised Magento core modules including inventory management, product details, and checkout processes for World of Amrutanjan and Precious Imaginarium, resulting in increased efficiency and smoother user experiences.
- Led server setups and deployment automation using AWS, Docker, and Varnish, optimising hosting environments for enhanced performance and scalability.
- Actively contributed to client communications and project management, ensuring alignment with business goals and agile methodologies.

FULL STACK DEVELOPER

Seepossible Innovative Solutions LLP | May 2018 - Sep 2020

- Developed e-commerce solutions using Magento 2 and PHP, gaining full proficiency in back-end and front-end development.
- Managed third-party API integrations for payment gateways and shipping providers, improving transaction processing time by 30%.
- Worked on React and JavaScript for client-side customisation, enhancing user interaction and front-end performance.
- Contributed to the successful launch of several projects, including RAPID IMAGINARIUM, where I led both development and client-facing responsibilities.

SOFTWARE ENGINEER

Bosleo PVT LTD | Mar 2017 - May 2018

- Worked as a PHP developer with frameworks like CodeIgniter and Laravel, delivering custom web applications.
- Integrated AngularJS and Memcache to build efficient web applications with improved data retrieval speeds.

SOFTWARE ENGINEER

Narola Infotech PVT LTD | Jan 2016 - Mar 2017

- Developed applications using PHP frameworks like Laravel, CodeIgniter, and WordPress.
- Integrated various APIs (Facebook, Twitter, Google Maps, Stripe) into web applications, creating robust social and payment integrations.
- Gained extensive experience in Git, collaborating with global teams on high-profile client projects.

KEY PROJECTS

T-MOBILE (MAGENTO 2.4.6, ADOBE COMMERCE)

- Developed GraphQL APIs, optimized server performance, and implemented unit tests.
- Managed client communication and version control through Git, leading to seamless project execution.

PERFECTA BE (MAGENTO 2.4.4, FURNITURE E-COMMERCE)

<http://perfecta.be/>

- Led the project from scratch for this multi-website and multi-language platform.
- Customised 3D product management, vendor modules, and MSI inventory, integrating complex ERP systems through XML imports.

WORLD OF AMRUTANJAN (MAGENTO 2.4.3)

<https://www.worldofamrutanjan.com/>

- Spearheaded back-end customisation, MSI optimisation, and customised shipping/payment methods.
- Improved customer experience by adding zip-code-based product availability and OTP-based checkout verification.

FJEWELLERY (MAGENTO 2.4.5, ADOBE COMMERCE)

<https://hattongardenjewellery.co.uk>

- Delivered end-to-end Magento development for a UK-based client, including server setup, Varnish configuration, and frontend customization.
-
